

ADOPTION

POPPY

This gorgeous girl, Poppy, is about 6 months old. She was nervous of humans at first, but since being in foster care she has blossomed into a very confident teenager, who now loves affection. She adores other dogs and definitely needs a home with a playmate big or small. Poppy has a huge basket of toys and spends all day playing with them. She is the ideal puppy that sleeps all night, is fully toilet trained and walks well on a lead. She will be a medium to large dog but with a slight frame. Exercise is essential at her age.

GEMMA

Kitty season is coming to an end! Grab this cutie while you can.

Gemma is a gorgeous 12 week old girl. She loves people and seeks out their company. Gemma is affectionate and needs a cosy lap or warm neck to snuggle up against. She is a very confident and fearless at this age. She is in foster care with other dogs, cats and children so she is well-socialised and ready for her forever home.

T-REX

T-Rex is about 14 weeks old and will be a chunky medium sized boy with a very silky coat! He gets on well with other dogs and cats. He is a typical puppy who enjoys socialising and hanging out with both animals and humans (big and small). T-Rex is a confident boy but listens to commands well. He needs company for part of the day and regular exercise.
